

Christy G. Montejo

Front-end Web Developer | UI/UX Designer

christymontejo2003@gmail.com | Cebu City, Philippines | christy-montejo.vercel.app | linkedin.com/in/christymontejo | github.com/chrischiii21

SUMMARY

Front-end developer and UI/UX designer specializing in high-performance web applications and high-conversion websites built with Astro, React, and Tailwind CSS. Focused on sales-first design that prioritizes lead generation and conversion optimization for trade-specific industries.

EXPERIENCE

Web Developer, N-Compass TV / NTV360 Jul 2026 – Present
Cebu City, Philippines

- Built web applications and high-conversion websites for company dealers, applying CRO-focused design to drive lead generation.
- Contributed franchise dashboard features to systematize and streamline the developer workflow.
- Maintained and extended web features across internal tools and client-facing platforms.

IT Intern (OJT), N-Compass TV / NTV360 Jan 2026 – May 2026
Cebu City, Philippines

- Redesigned core UI/UX flows for internal platforms, improving user efficiency and screen management productivity.
- Leveraged collaborative vibe coding agents and the Astro framework to develop and deploy responsive template galleries for diverse client trades (HVAC, Electrical, Plumbing), reducing client configuration time.
- Conducted rigorous QA testing and cross-browser validation to ensure 99.9% uptime for client-facing showcase modules.

ESL Teacher, Happy Planet 2024 – 2025
Remote

- Conducted English language lessons for international students.
- Developed personalized communication strategies.

PROJECTS

Internship Tracker — Professional management dashboard for tracking internship hours and administrative progress in real-time. (Astro, Python, TypeScript)

TicketFlow — Visual automation tool for generating numbered tickets and certificates from custom templates. (Astro, CSS, JavaScript)

Prompt Bucket — Community-driven library for AI prompts, optimized for high-fidelity image and video generation. (TypeScript, Astro, CSS, JavaScript)

EDUCATION

Bachelor of Science in Information Technology 2022 – 2026
Cebu Technological University – Argao Campus

TECHNICAL SKILLS

Development:	JavaScript, TypeScript, React, Astro, Tailwind CSS, Vite, Node.js
Design & Optimization:	UI/UX Design, Figma, CRO, Performance Optimization, Responsive Design
AI & Prompt Engineering:	Prompt Engineering, Claude Code, Gemini
Tools & Platforms:	Python, Git/GitHub, Vercel, Bun Runtime, PostgreSQL, RESTful APIs, QA Testing

ADDITIONAL ACHIEVEMENTS

- Proactive Optimization** — Initiated and led the migration of media-heavy template modules to Astro and Tailwind, reducing core page sizes and speeding up screen load times by 40%.
- Technical Mentorship** — Organized Figma-to-code training sessions for fellow interns, establishing standardized component design systems that accelerated prototype deliveries.
